# Better Document Performance, Better Business

With speed for added productivity, full colour for enhanced communication, and built-in security features for total peace of mind, the MX-3114N/2614N is a must-have for any office looking to build its business.

This full-colour A3 solution packs the four-in-one convenience of fast, high-quality copying and network printing, handy network scanning, and a B/W fax option into one energy- and space-saving MFP. For operational efficiency, there's a high-speed 100-sheet Reversing Single Pass Feeder, an optional 500 + 2,000-sheet large-capacity paper tray, and the Sharp OSA (Open Systems Architecture) development platform. To safeguard office communications, standard-equipped security functions\* provide encrypting/erasing of internally stored data, and the Data Security Kit option brings added protection.

\* Contact a Sharp customer representative for details on activating these security functions.

## Style, Function, and Ease of Use

The MX-3114N/2614N was designed to complement the décor of any workplace. And a 7.0-inch WVGA touchscreen colour LCD—with thumbnail displays and data file previews—raises the bar on user friendliness and easy navigation. A retractable QWERTY keyboard option offers added convenience.

Thumbnails

Preview

## Choice of Screen Style

The MX-3114N/2614N offers a choice of six LCD screen colours. While the default colour is black, users can easily select their preferred background style.

# Breathtaking Image Quality

Sharp's second-generation Mycrostoner-HG (High Grade) and an improved imaging system combine to allow the full spectrum of colour reproduction in crisp, sharp detail. And because the MX-3114N/2614N is so easy to operate, breathtakingly high-quality images can be had with just the touch of a finger.

## 2nd-Generation Mycrostoner-HG

## Auto Colour Mode

# Sharpdesk Mobile – Keeping Pace with the Way You Work

As document demands increasingly move from out behind the desk to wherever business takes you, **Sharpdesk Mobile\***—an easy-access mobile print/scan application that connects Sharp MFPs to popular mobile devices via a wireless LAN connection—can help you keep pace. Documents scanned on a Sharp MFP can be sent to a mobile device to preview and save. And documents saved on a mobile device can be printed out on the MFP, sent as e-mail attachments, or used in other applications. By combining the efficiency of Sharp MFPs and the convenience of mobile devices, Sharpdesk Mobile is adapting document usage to today's changing work styles.

\* For details, see the Sharpdesk Mobile support Web site: [http://sharp-world.com/products/copier/docu\\_solutions/mobile/sharpdesk\\_mobile/](http://sharp-world.com/products/copier/docu_solutions/mobile/sharpdesk_mobile/)

# COPYING & NETWORK PRINTING

## PRODUCTIVE

### Super-Efficient Colour and B/W Output

The tandem printing engine with four in-line drums helps the MX-3114N/2614N deliver a fast output of **31/26 cpm/ppm\*** in full colour and in B/W. And the first copy comes out in just **7.9/8.1 seconds** in full colour and **5.8/5.9 seconds** in B/W. What's more, its short, straight paper path minimises misfeeds to save you paper and toner costs.

\* A4 (8 1/2" x 11"), long-edge feeding

### Built-In Duplex Module

The MX-3114N/2614N can make **two-sided copies and printouts** using its built-in stackless duplex module, effectively reducing paper costs as well as saving filing space. Duplex copying is even more effective when the duplex module is used together with the standard-equipped **100-sheet RSPF** (reversing single pass feeder), which efficiently feeds in one- or two-sided originals and can also simultaneously scan paper of different sizes.

### Automated Finishing

The MX-3114N/2614N automates time-consuming finishing tasks and makes it easy to create professional-looking booklets. For a consistent, polished look, the **chapter divide** function prints documents so that all chapters begin on odd-numbered pages or all begin on even-numbered pages. A space-efficient **Finisher** is available for jobs that require sorting and stapling. And, an optional **Punch Module** allows you to punch holes in documents for easy filing.

### Extra Paper Capacity

For high-volume work, the MX-3114N/2614N can accommodate an optional stand with 500 + 2,000-sheet paper drawer for a total capacity of **3,100 sheets**. When a tray runs out of paper, the **Auto Tray Switching** function automatically switches to another paper tray filled with the same size paper, allowing you to do extra-large volume jobs without worry.

### Network Tandem Function

When two MX-3114N/2614Ns are connected to the same office network, you can use both simultaneously to double copying/printing output to up to **62/52 cpm/ppm**. Large-volume jobs can be completed with ease, enabling you to meet tight deadlines.

### Job Build for Large-Volume Scanning

The MX-3114N/2614N easily handles large-volume copy jobs exceeding the RSPF's 100-sheet\*<sup>1</sup> capacity. For example, a 270-sheet original can be scanned as batches of 100 + 100 + 70 sheets and automatically stored on the MX-3114N/2614N's hard disk\*<sup>2</sup>. Users can then print the entire document in a single run.

\*1: A4 (8 1/2" x 11"), 80 g/m<sup>2</sup>

\*2: The number of pages that can be stored for the Job Build function depends on the machine's HDD capacity and other conditions.

### Long-Paper (Banner) Printing\*

The optional **Long Paper Feeding Tray** accommodates extra-long paper up to **1,200 mm**—expanding the range of print products to include panoramic pictures, large display-window ads, banner signs, and more.

\* Contact a Sharp customer representative for details on using this function.

(Image)

### Proof Copying or Printing

To prevent the waste of large-volume misprints, the MX-3114N/2614N lets users output only the first set to check the content, adjust settings if necessary, and then initiate output of the rest of the job from the LCD control panel.

## NETWORK-READY

### Supports Most Office Environments

- The MX-3114N/2614N works with the latest and most commonly used versions of Windows®, Windows Server®, and Mac operating systems and network protocols—including **IPv6**—even in mixed OS environments. You get fast, powerful network printing via the 1000Base-T **Gigabit Ethernet** standard.
- The MX-3114N/2614N supports the **PCL 6** printer language. For compatibility with **PostScript® 3™**, the MX-PK11 PS3 Expansion Kit is available.

## SUPERB IMAGE QUALITY

### Improved Imaging System

Sharp thoroughly revamped its imaging process for the MX-3114N/2614N; now a high-performance processor, a new developer, and the **second-generation Mycrostoner-HG** (High Grade) combine to provide breathtaking image quality. The new toner expands the colour reproducibility range for a more natural rendering of clear blue skies, emerald green oceans, and other colour images. And the smaller particle size of the toner and the developer allows for reduced graininess and clear reproduction of fine lines, fine text, and halftone colours.

### Crisp, Clear Text and Images

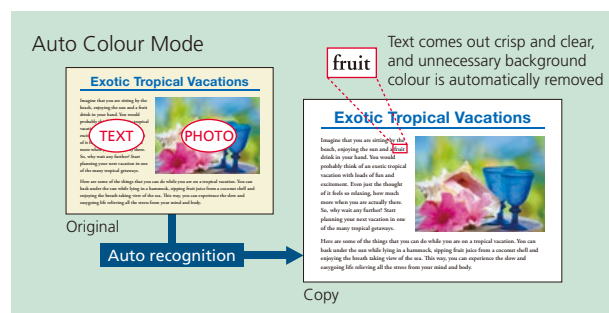

Employing digital smoothing technology enhances the print resolution to the equivalent of **9,600 x 600 dpi** for incredibly smooth reproduction of fine lines. Fine-grained photographs, detailed illustrations and graphs, and small text come out crisp and clear.

### Easy, High-Quality Copying

The MX-3114N/2614N comes standard with **Auto Colour Mode** to deliver high-quality automated copying. This function allows the MFP to make clear, easy-to-read copies from documents that contain not only text but also photos and maps. Here's how it works: **Auto Colour Selection** automatically determines whether a page is colour or B/W. The contents of each page are then analysed to distinguish between different components, such as photos and text, and the appropriate copy mode for that page is selected. Finally, Background Suppression automatically removes unnecessary background colour for clearer output.

## VERSATILE

### USB Memory Direct Print\*

One of the two USB ports on the MX-3114N/2614N is located at the front of the MFP beneath the control panel. It comes in handy when printing data directly from USB memory devices—an indispensable function for users who are in a hurry or who want quick machine access without a PC.

\* Direct PDF printing requires optional MX-PK11. Direct XPS printing requires optional MX-PUX1 and 2GB of extra memory.

### Versatile Paper Handling

The MX-3114N/2614N accommodates a wide range of paper sizes, from **A5R (5 1/2" x 8 1/2"R)** to **A3 wide (12" x 18")**. You can do A3 (11" x 17") **full-bleed printing** onto **A3-wide (12" x 18")** paper, without loss of image area. And the MX-3114N/2614N can handle heavy paper stock up to **300 g/m<sup>2</sup>**, overhead transparencies, and other types of paper, further expanding the range of printing applications.

### Image Editing Functions

The MX-3114N/2614N includes colourful editing functions made possible by digital technology.

- **Photo Repeat** places multiple copies of an image onto a single sheet.
- **Mirror Image** makes a reverse image of the original.
- **XY Zoom** adjusts the horizontal and vertical ratios independently.
- **B/W Reverse** reverses the black and white of an image.

Please see specifications for a list of available convenient functions.

### Other Key Features

#### Copy & Print

- **Watermark** prints a user-selected watermark, such as "Urgent," on each page to indicate the status of the document.
- **Tab Copy / Tab Print** can copy or print directly onto tabs on document separators and insert them into assigned positions.
- **Multi-Shot** copying and **N-up** printing
- **Pamphlet Style** copying/printing
- **Multi-Page Enlargement** copying/printing
- **Cover/transparency** insertion

#### Print

- **Direct Print** allows **PDF\*1**, **TIFF**, **JPEG**, or **XPS\*2** files to be printed without using the printer driver or opening applications.
- **Carbon Copy Print** mode automatically outputs multiple printouts of the same data on plain and/or coloured paper; convenient for invoices and purchase orders.
- **Form Overlay** can store office document formatting such as letterheads and overlay contents in colour, eliminating the need for pre-printed paper.
- **Barcode font** compatibility\*3

\*1: Direct PDF printing requires optional MX-PK11. \*2: Direct XPS printing requires optional MX-PUX1 and 2GB of extra memory. \*3: Requires optional MX-PF10.

#### Copy

- **Book Copy** is convenient for compiling copies of a book or bound originals into pamphlet format.
- **Card Shot** enables one-touch copying of both sides of a card (credit cards, ID cards, etc.) onto a single page.
- **Colour Stamp** labels your copies with page numbers, the date or text such as "Urgent" in up to four different colours.
- **Mixed Size Original Copy** mode automatically distinguishes documents of mixed sizes\* (such as A3/B4, B4/A4, etc.) fed through the RSPF and chooses the appropriate paper.

\* Some restrictions apply when combining paper sizes of different format series.

# IMAGE SENDING

: Scan : Fax

## A3 Colour Network Scanning

The MX-3114N/2614N works as a **full-colour network scanner** and supports TIFF, PDF, encrypted PDF, XPS, JPEG, and PDF/A file formats. Converting any type of paper-based document, up to A3 (11" x 17") in size, into an editable digital file is as easy as making a copy. Enhanced scan performance improves the legibility of extremely fine text and allows vivid colour reproduction in scanned documents. And **Auto Colour Selection** chooses the right mode for scanning originals containing both colour and B/W pages (see page 4).

## Quick Scanning

For both colour\*<sup>1</sup> and B/W documents, the MX-3114N/2614N carries out scanning at max. **50 opm**\*<sup>2</sup> (one-sided) and can complete large scan jobs with ease and efficiency.

\*1: Faxing is available in B/W only.

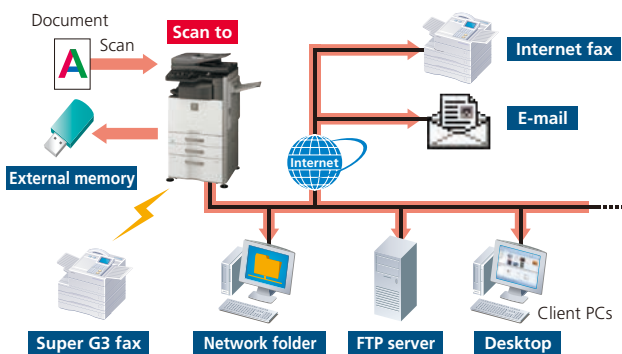

\*2: Originals per minute; when feeding A4 (8 1/2" x 11") sheets.

## Skip Blank Page Function

When scanning and sending a multi-page document, the MX-3114N/2614N automatically recognises and skips over any pages without content, reducing both data size and transmission time.

## Multiple Distribution of Scanned Files

With the touch of a few on-screen buttons, you can choose different ways to distribute your scanned documents. **Scan to E-mail** sends documents as an e-mail attachment. **Scan to FTP Server** scans documents directly to an FTP server for storage. **Scan to Desktop** sends scanned documents directly to your PC desktop. **Scan to Network Folder (SMB)** sends files to a shared folder on a networked Windows PC. **Scan to USB Memory** scans documents directly to USB memory devices. And **Scan to Fax** enables conventional faxing or Internet faxing.

## LDAP Support

Built-in LDAP (lightweight directory access protocol) support eliminates the need to enter or register full addresses. By entering the first few letters of the recipient's name, the MX-3114N/2614N displays a list of possible matches from your company's LDAP server. Selected addresses can be stored to the MX-3114N/2614N's address book.

## High-Speed Faxing

The optional MX-FX11 Fax Expansion Kit turns the MX-3114N/2614N into a 33.6 Kbps **Super G3 fax** machine. Quick On-Line Transmission initiates dialling and transmitting as soon as a page is scanned into memory. JBIG compression technology lets the MX-3114N/2614N send an A4 (8 1/2" x 11") size page in under three seconds\*. And using the 100-sheet RSPF gives faxing efficiency a further boost. Incoming faxes are also handled with automated ease. The number of copies to be made can be specified on the LCD control panel's Fax Output setting, and optional finishing options can be installed for automatic stapling of those copies.

\* Based on Sharp's standard chart with approximately 700 characters (A4 or 8 1/2" x 11" long-edge feeding) at standard resolution.

## PC-Fax/PC-Internet Fax

Directly send a document created on your PC to a recipient's fax machine via a phone line or the Internet without printing to paper. Save time and paper costs while retaining original document quality. Note: PC-Internet Fax requires optional MX-FWX1; PC-Fax requires MX-FX11.

## Internet Fax

Economically send and receive faxes to and from other ITU-T T-37-compliant Internet fax machines via the Internet. The MX-3114N/2614N supports **Direct SMTP**; outgoing Internet faxes do not go through your mail server, making transmission faster and cheaper.

Note: Requires optional MX-FWX1.

## Paperless Faxing with Inbound Routing

Paperless faxing with inbound routing lets you check incoming faxes via e-mail before printing. It can also forward incoming faxes to another fax/Internet fax machine, an FTP server, a network folder (SMB), or a PC desktop. Files can be saved in either PDF or TIFF (single/multi).

Note: Requires optional MX-FX11 and/or MX-FWX1.

## Other Key Features

### Scan & Fax

- **One-touch auto dial keys** register up to **1,000** numbers for frequently used destinations
- **Broadcast transmission** to up to 500 destinations
- **Program keys** (up to 48 keys) are available to set up frequently used transmissions for instant recall
- **Easy text entry\*** lets you enter addresses, file names, subject titles or messages from the LCD control panel
  - \* Only addresses can be entered for faxing.
- **Mixed size original scanning** automatically distinguishes documents of mixed sizes fed through the RSPF

### Fax

- **Duplex transmission/reception** sends and prints out two-sided documents
- **SD memory card backup** ensures documents remain safely backed up in memory, even in the event of a power failure
- **Rotation transmission/reception** rotates incoming and outgoing faxes to match the direction of the printing paper
- **Fax destination confirmation** allows users to reconfirm fax numbers before sending to prevent transmission errors

# SECURITY

## Industry-Leading Multi-Layered Security

Designed to protect your business assets and bring you peace of mind, Sharp's industry-leading security solutions employ multiple levels of security functions—both standard equipped and optional—covering a broad range of network and data security needs. The MX-3114N/2614N safeguards sensitive data with powerful, enhanced security functions that eliminate the worry of unauthorised use and guarantee greater protection for your confidential information.

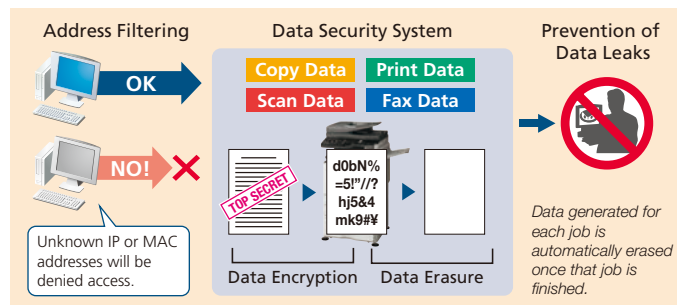

## STANDARD

### Data Encryption and Overwriting

Digital copier/printers and MFPs retain large amounts of data generated from copy/print/scan/fax jobs in internal storage. To safeguard confidential data from unauthorised access, standard-equipped security features on the MX-3114N/2614N automatically **encrypt** job data prior to saving it to internal storage. Once a job is finished, that encrypted data is **erased** via up to seven automatic overwrites.

**Protection** of administrator/file/folder passwords brings further peace of mind.

Note: Contact a Sharp customer representative for details on activating these security functions.

### Secure Network Access

The **IP/MAC address filtering** function provides highly secure operation by restricting access to the MFPs on your office network. Only PCs that have either their IP address or MAC (media access control) address registered are allowed to use the MFPs.

Attempted access from an unknown IP or MAC address will be denied, preventing unauthorised use. The MX-3114N/2614N also supports the **IEEE 802.1X** standard for port-based network access control, which blocks all access from unauthorised devices.

### User Authentication

The MX-3114N/2614N prevents unauthorised use by requiring **passwords** for machine access. This safeguarded solution can register up to 1,000 users in **three access levels** as Administrator, User, or Guest and can designate to which function user authentication applies. The MX-3114N/2614N can, for example, be set to allow B/W copying by all users while restricting colour copying to designated users. And the MX-3114N/2614N works with an **external Active Directory server** to extend user authentication to multiple MFPs and a greater number of users.

User authentication

### IPsec Support

The MX-3114N/2614N supports **IPsec**, a set of protocols for securing Internet protocol (IP) communications. IPsec encrypts and authenticates traffic between specified parties, giving IPsec-compatible products an extremely high level of network security.

### Data Initialisation

The MX-3114N/2614N's initialisation function allows confidential information to be erased at the administrator's discretion via the MFP's system setting. Initialising an MFP when it's time to replace it prevents important resources, such as customer information and intellectual property, from leaking out and provides considerable peace of mind.

### Encrypted PDF with Password Protection

To prevent unauthorised viewing of confidential data, the MX-3114N/2614N enables scanned PDF data to be password protected and encrypted for transmission over the network. After transmission, viewers can gain access to the encrypted PDF only after re-entering the password.

### Secure Sockets Layer

SSL (secure sockets layer) enables the encryption of data communications to prevent data leakage through the network when printing via IPP, browsing secure Web pages (HTTPS), or communicating via e-mail (SMTP and POP3) or FTP (FTPS).

### Scan to Me Function

Scan to Me lets a logged-in authorised user send scanned data to his/her own e-mail address simply by pressing the start button. This eliminates the need to manually enter or select the address, thereby preventing documents from being sent to the wrong address.

## OPTION

### Document Control Function

Document Control prevents unauthorised copying, scanning, faxing, and filing of confidential documents by embedding copy prevention data onto a document. When that data is detected, any unauthorised attempts to copy will be cancelled or will result in only blank-page output.

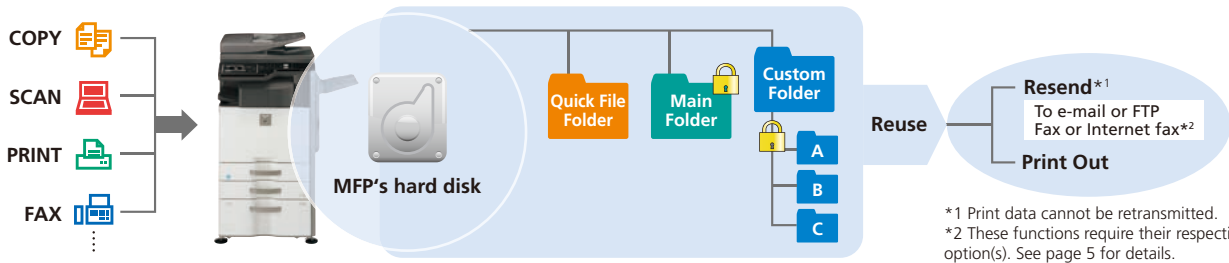

Note: Requires optional Data Security Kit. May not work for certain types of documents or paper.

# DOCUMENT MANAGEMENT

## Document Management on the Hard Disk

You can save processed job data in designated folders on the MX-3114N/2614N's built-in hard disk, making it easy to instantly recall saved documents or jobs for printing and sending at a later time. This contributes greatly to efficient sharing and distribution of information in your business operations.

\*1 Print data cannot be retransmitted.  
\*2 These functions require their respective option(s). See page 5 for details.

### Quick Filing

Up to **10,000 pages** or 1,000 files\*<sup>3</sup> that have been copied, printed, scanned, or faxed\*<sup>4</sup> can be stored by job in a Quick File Folder. You can easily reuse saved data without having to reload or rescan the original.

### Advanced Filing Function

Up to **20,000 pages** or 3,000 files\*<sup>3</sup> that have been copied, printed, scanned, or faxed\*<sup>4</sup> can be stored by job on the hard disk in up to 1,000 folders with customised names and locations. Enhanced security features require users to enter a 5- to 8-digit password to access secure folders, protecting your sensitive data. Storage options include Main Folder for workgroup sharing and Custom Folder for enhanced-security archiving.

\*3: Storage capacity will vary depending on the type of document and the scan settings.

\*4: For fax and Internet fax jobs, only transmitted data (not received faxes) can be saved in the Document Filing function.

## Easy Access to Stored Files

Documents stored on the hard disk can be quickly and easily searched and accessed from the control panel's LCD via thumbnail displays and file previews or through a Web browser.

Search results

Web access screen

## Easy Sharing of Application Files

To facilitate file sharing across the office network, the MX-3114N/2614N provides 120GB of hard disk storage space for folders. Each folder can hold up to 500 files created with applications such as Word and Excel® and saved in their original format.

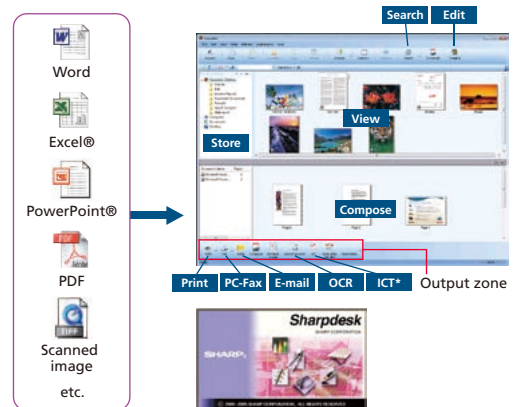

Note: Sharp recommends backing up data saved to the MFP's hard disk.

## Sharpdesk for Total Document Management

Sharpdesk is an original Sharp application that provides integrated desktop management of documents in over **200 file formats**, including scanned paper-based documents and those created with popular applications such as Word. It allows you to organise, edit, search, and distribute your documents, all with simple drag-and-drop operation.

- Intuitive desktop display features **thumbnail** viewing
- Sharpdesk Imaging provides **annotation** tools for paper-free proofreading
- Sharpdesk **Composer** combines different types of files into a single document
- **Optical character recognition** converts documents into editable text files
- **Output zone** distributes files to e-mail, printers, and other applications

\* Image Compression Tool for converting images into compact PDF files

# DEVICE MANAGEMENT

## Web-Based System Settings

Administrators can manage every important setting—including user access and security as well as other controls and configurations—through a standard Web browser right from their desktops.

Web-based device management

## Network Utility Software

**Sharp Remote Device Manager\*** (SRDM) gives administrators centralised, real-time control of their networked MFPs through a standard Web browser, making device cloning, firmware updates, and everything else easier and more accessible.

\* Requires download from Sharp's Web site.

## Remote Diagnosis

The MX-3114N/2614N can be monitored remotely through a Web browser, letting administrators handle tasks before they become problems. And when action or maintenance is required, the **E-Mail Status and Alert** function notifies administrators via timely e-mail alerts.

## Remote Operation

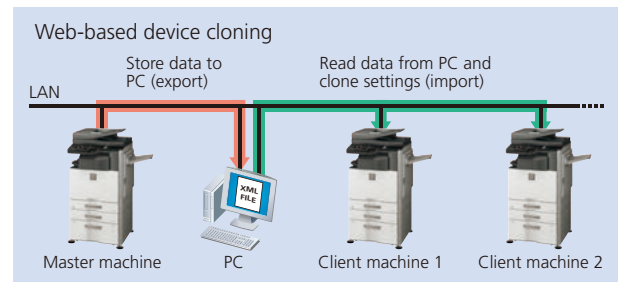

The Remote Operation function lets you display the MFP's main control panel on your PC screen, allowing you to operate every major function directly from your desktop.\* This function also enables the administrator to guide an MFP user through necessary procedures and allows remote MFP operation from a wheelchair.

\* Requires VNC application.

## Device Cloning

Machine settings can be copied conveniently to another MX-3114N/2614N via a Web browser in XML format, making it easy to clone machines in a networked environment. With Device Cloning, the administrator no longer needs to set up individual machines one by one, thereby making his/her job a lot easier.

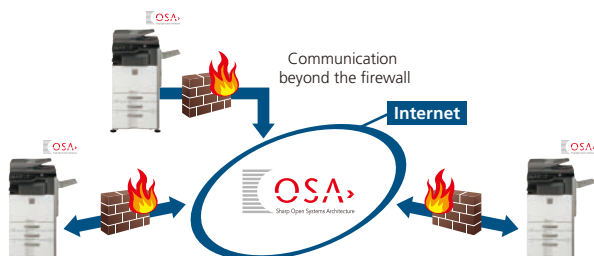

# EXPANDABILITY

## Sharp OSA\* (Open Systems Architecture)

Innovative Sharp OSA technology allows you to interact with critical business and network applications right from the LCD control panel, offering a new realm of control and convenience. And since Sharp OSA utilises industry-standard network protocols, the MX-3114N/2614N can easily integrate with document management systems, enterprise resource planning software, workflow applications, and more. The latest version of Sharp OSA can **reach beyond the firewall**, enabling extensive system construction and services over the Internet. Sharp OSA brings benefits such as reducing the costs associated with system implementation and management, as well as enabling data sharing across company branch offices or subsidiaries.

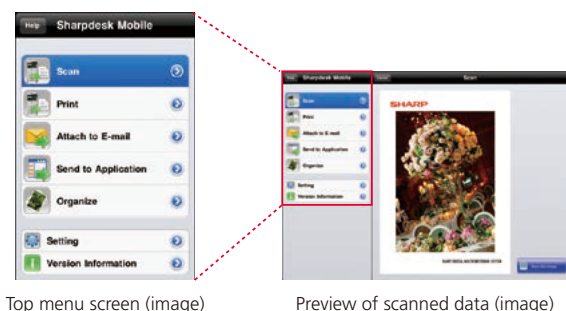

\* Requires optional MX-AMX2 and/or MX-AMX3.

## Sharpdesk Mobile\*

Sharpdesk Mobile is a mobile print/scan application that combines the convenience of mobile devices and the efficiency of Sharp MFPs to make conducting business on the go easier than ever. Documents scanned on a Sharp MFP can be sent to a mobile device to preview and save. Documents saved on a mobile device can be printed out on the MFP, sent as e-mail attachments, or used in other applications.

\* Availability varies by country/region. For details, see the Sharpdesk Mobile support Web site:  
[http://sharp-world.com/products/copier/docu\\_solutions/mobile/sharpdesk\\_mobile/](http://sharp-world.com/products/copier/docu_solutions/mobile/sharpdesk_mobile/)

# EASE OF USE

## 7.0-Inch Touchscreen LCD

The MX-3114N/2614N features a logically designed control panel with a wide, clear, WVGA-resolution touchscreen LCD. Easy-to-follow guidance puts step-by-step instructions on the LCD to guide you through all the necessary procedures for staple/sort finishing, pamphlet making, and other functions. Pushing the **Home** button, even in the middle of an operation, takes you back to the Start screen. Programming the most frequently used functions and settings into **My Menu** gives you quick and easy access to them. And using the included stylus pen provides controlled, accurate touch-screen operation.

## Retractable Keyboard (option)

A **full-size retractable QWERTY keyboard** slides out from beneath the control panel to make text input fast and easy: convenient for typing things like e-mail addresses and messages, as well as passwords for user authentication.

## Easy-Grip Handles

Easy-grip handles on the MX-3114N/2614N reflect a universal design that allows the paper drawers to be grasped from the top as well as the bottom for easy opening and closing.

## Thumbnail Display and Previews

Making the search for files easier and more convenient than ever, thumbnails and up-close previews of Document Filing data files, as well as conventional file names, can be displayed on the MX-3114N/2614N's LCD control panel. And to help users decide which documents to print out or forward to others, the LCD can also display thumbnails and previews of incoming faxes and Internet faxes. The MX-3114N/2614N even prevents errors in copying, scanning, or saving documents to its hard disk by showing previews of those jobs on the LCD before actually executing them, making it easy to confirm finishing options, scan settings, and other such items.

## Job Status Screen

Whether printing or copying, the control panel displays a list of all jobs, showing you at a glance the jobs in progress and the position of your job in the queue. And, with a few quick touches of the LCD screen, the **Priority Printing** function lets you easily **change the job queue order** or delete jobs that are no longer needed.

Job status

# ENVIRONMENT-FRIENDLY

## Outstanding Energy Efficiency

To reduce power consumption, Sharp has applied its advanced technologies across all areas of this MFP, including the hardware, software, electrical system, and supplies. As a result, the MX-3114N/2614N boasts one of the lowest power consumption rates in its class.

- Sharp's belt fusing system shortens the MX-3114N/2614N's warm-up time to **18 seconds**, contributing to reduced overall energy consumption.
- Based on prior usage patterns, the MX-3114N/2614N automatically determines the optimal length of time to let elapse before going into auto power shut-off mode, helping reduce overall power consumption.
- **Power ON/OFF Schedule** function automatically turns the MX-3114N/2614N on or off according to time schedules set by the administrator.

- **Eco Scan** function saves energy by turning off power to the fusing system during jobs that don't require any printing, such as Image Sending and Document Filing.
- Second-generation Mycrostoner-HG has a **lower melting point** than conventional toner, allowing fusing to be carried out with less energy. It also offers a significantly lower consumption rate than conventional toner.
- For further energy savings, energy-efficient **LED lamps** are employed in the scan unit in place of conventional xenon lamps. A new ASIC (application-specific integrated circuit) also helps the MX-3114N/2614N deliver excellent performance and energy efficiency.
- The time interval after which the MFP will go into auto power shut-off mode can be temporarily extended via the control panel.

# OPTIONS

## System Configuration

Certain options may not be available in some areas.

## Specifications for Options

### MX-FN17 Finisher

Paper size	Non offset Offset/staple	A3W to A5R (12" x 18" to 5 1/2" x 8 1/2"R) A3 to B5 (11" x 17" to 8 1/2" x 11"R)
Paper capacity		250 sheets (A3, 11" x 17"), 500 sheets (A4, 8 1/2" x 11")
Stapling capacity		50 sheets (A4 or smaller), 30 sheets (B4 or larger)
Staple position		3 locations (front, rear or both)

### Punch Modules

Model name	For the MX-FN17	MX-PN11A	MX-PN11B	MX-PN11C	MX-PN11D
Number of holes		2	3	4	4 (wide)
Paper weight		55 to 256 g/m <sup>2</sup> *			

\* Guaranteed punchable weight is 55 to 128 g/m<sup>2</sup>.

### MX-FX11 Fax Expansion Kit

Compression method	MH/MR/MMR/JBIG
Communication protocol	Super G3/G3
Modem speed	33,600 bps to 2,400 bps

### MX-DE12 Stand with 500-Sheet Paper Drawer

Paper size	A3 to A5R (11" x 17" to 5 1/2" x 8 1/2"R)
Paper capacity	500 sheets (80 g/m <sup>2</sup> )

### MX-DE13 Stand with 2 x 500-Sheet Paper Drawer

Paper size (upper/lower tray)	A3 to A5R (11" x 17" to 5 1/2" x 8 1/2"R)
Paper capacity (upper/lower tray)	500 sheets each (80 g/m <sup>2</sup> )

### MX-DE14 Stand with 3 x 500-Sheet Paper Drawer

Paper size (upper/middle/lower tray)	A3 to A5R (11" x 17" to 5 1/2" x 8 1/2"R)
Paper capacity (upper/middle/lower tray)	500 sheets each (80 g/m <sup>2</sup> )

### MX-DE20 Stand with 500 + 2,000-Sheet Paper Drawer

Paper size (upper tray)	A3 to A5R (11" x 17" to 5 1/2" x 8 1/2"R)
(lower right/left tray)	A4 (8 1/2" x 11")
Paper capacity (upper tray)	500 sheets (80 g/m <sup>2</sup> )
(lower right tray)	850 sheets (80 g/m <sup>2</sup> )
(lower left tray)	1,150 sheets (80 g/m <sup>2</sup> )

### MX-LT10 Long Paper Feeding Tray

Paper size	Max. 1,200 mm long
Paper capacity	1 sheet (80 g/m <sup>2</sup> )

Note: When using Sharpdesk and Sharp OSA, please ask your Sharp representative about PC system requirements.

## SPECIFICATIONS

General	
Type	Desktop
Engine speed	A4 (8 1/2" x 11")*1: Max. 31/26 ppm A3 (11" x 17")*: Max. 15/14 ppm
Control panel display	7.0-inch colour LCD touchscreen
Paper size	Max. A3 wide (12" x 18"), min. A5 (5 1/2" x 8 1/2")*2
Paper capacity (80 g/m <sup>2</sup> )	Standard: 600 sheets (500-sheet tray and 100-sheet multi-bypass tray) Maximum: 3,100 sheets (600 sheets & optional 500 + 2,000-sheet tray)
Paper weight	Tray: 60 g/m <sup>2</sup> to 220 g/m <sup>2</sup> (16 lbs bond to 80 lbs cover) Multi-bypass tray: 55 g/m <sup>2</sup> to 300 g/m <sup>2</sup> (13 lbs bond to 110 lbs cover)
Warm-up time*3	18 sec.
Memory	Standard: 3GB (copy/print shared) 320GB HDD*4 Option: 2GB
Power requirements	Rated local AC voltage ±10%, 50/60 Hz
Power consumption	Max. 1.84 kW (220 to 240V), max. 1.44 kW (100 to 120V)
Dimensions (W x D x H)	608 x 642 x 834 mm (23 15/16" x 25 9/32" x 32 53/64")
Weight (approx.)	220 to 240V: 76.2 kg (168 lbs) 100 to 120V: 75.6 kg (166.7 lbs)

Copier	
Original paper size	Max. A3 (11" x 17")
First copy time*5	Full colour: 7.9/8.1 sec. B/W: 5.8/5.9 sec.
Continuous copy	Max. 999 copies
Resolution	Scan (colour): 600 x 600 dpi Scan (B/W): 600 x 600 dpi, 600 x 400 dpi, 600 x 300 dpi Print: 600 x 600 dpi, 9,600 (equivalent) x 600 dpi (depending on copy mode)
Gradation	Equivalent to 256 levels
Zoom range	25 to 400% (25 to 200% using RSPF) in 1% increments
Preset copy ratios	Metric: 10 ratios (5R/5E), inch: 8 ratios (4R/4E)

Network Scanner	
Scan method	Push scan (via control panel) Pull scan (TWAIN-compliant application)
Scan speed*6	[Colour & B/W] Max. 50 originals/min.
Resolution	Push scan: 100, 200, 300, 400, 600 dpi Pull scan: 75, 100, 150, 200, 300, 400, 600 dpi 50 to 9,600 dpi via user setting*7
File formats	TIFF, PDF, encrypted PDF, JPEG*8, XPS, PDF/A
Scanner utility	Sharpdesk
Scan destinations	Scan to e-mail/desktop/FTP server/network folder (SMB)/ USB memory

\*1: Long-edge feeding.  
\*2: Only short-edge feeding can be used with A5 (5 1/2" x 8 1/2") paper.  
\*3: At rated voltage, 23°C (73.4°F). May vary depending on operating conditions and environment.  
\*4: HDD capacity depends on procurement and sourcing status.  
\*5: Long-edge feeding of A4 (8 1/2" x 11") sheets from paper tray, using document glass, without Auto Colour Selection and Auto Colour mode, MFP in fully ready condition. May vary depending on operating conditions and environment.  
\*6: Based on Sharp's A4 standard chart, using document feeder, long-edge feeding, and one-sided scanning. Using factory default settings with Auto Colour Selection off. Scan speed will vary depending on the type of document and the scan settings.  
\*7: Resolutions higher than 600 dpi are interpolated.  
\*8: Colour only.  
\*9: Storage capacity will vary depending on the type of document and the scan settings.  
\*10: Some features require option(s).  
\*11: Optional MX-PK11 required for Mac OS and EtherTalk.  
\*12: IPv6 is supported only by LPR printing protocol.  
\*13: PostScript 3 requires optional MX-PK11. XPS requires optional MX-PUX1 and 2GB memory.  
\*14: Based on Sharp's standard chart with approx. 700 characters (A4 or 8 1/2" x 11" long-edge feeding) at standard resolution in Super G3 mode, 33,600 bps, JBIG compression.

Document Filing	
Document filing capacity*9	Main and custom folders: 20,000 pages or 3,000 files Quick file folder: 10,000 pages or 1,000 files
Stored jobs*10	Copy, print, scan, fax transmission
Storage folders	Quick file folder, main folder, custom folder (max. 1,000 folders)
Confidential storage	Password protection

Network Printer	
Resolution	600 x 600 dpi, 9,600 (equivalent) x 600 dpi
Interface	USB 2.0, 10Base-T/100Base-TX/1000Base-T
Supported OS*11	Windows Server® 2003, Windows Server® 2003 R2, Windows Server® 2008, Windows Server® 2008 R2, Windows Server® 2012, Windows Server® 2012 R2, Windows Vista®, Windows® 7, Windows® 8, Windows® 8.1, Mac OS X 10.4, 10.5, 10.6, 10.7, 10.8, 10.9, 10.10
Network protocols*11	TCP/IP (IPv4, IPv6), IPX/SPX (NetWare), EtherTalk (AppleTalk)
Printing protocols*12	LPR, Raw TCP (port 9100), POP3 (e-mail printing), HTTP, FTP for downloading print files, EtherTalk printing, IPP
PDL	Standard: PCL 6 emulation Option*13: PostScript® 3™ emulation, XPS
Available fonts	80 fonts for PCL, 136 fonts for PostScript 3 emulation

B/W Facsimile (optional MX-FX11 required)	
Compression method	MH/MR/MMR/JBIG
Communication protocol	Super G3/G3
Transmission time	Less than 3 seconds*14
Modem speed	33,600 bps to 2,400 bps with automatic fallback
Transmission resolution	From Standard (203.2 x 97.8 dpi) to Ultra Fine (406.4 x 391 dpi)
Recording size	A3 to A5 (11" x 17" to 5 1/2" x 8 1/2")
Memory	1GB (built-in)
Greyscale levels	Equivalent to 256 levels
